

REMARKS

Claims 1, 7 and 13 have been amended. Accordingly, claims 1-18 are currently pending in the present application.

Claims 1, 7 and 13 have been amended to obviate the examiner's rejection under 35 USC 112. Specifically, claims 1, 7 and 13 have been amended to clarify that the discrepancy referred to relates to a discrepancy in the mark up. Additionally, claim 7 has been amended to remove the "logic for" wording for the first two elements, and claim 13 has been amended to remove the "computer code for" wording, to thereby obviate the support issue raised by the examiner. Note that the logic elements in claim 7 and the computer code elements in claim 13 have been re-lettered and the first two amended elements have been moved above the electronic storage limitation in claim 7 and above the computer usable media limitation in claim 13 so that the amendment makes sense. No new matter has been added and changes have only been made to comply with the examiner's comments.

Applicant believes that the present application is now in condition for allowance. Favorable reconsideration of the application as amended is respectfully requested.

The Examiner is invited to contact the undersigned by telephone if it is felt that a telephone interview would advance the prosecution of the present application.

Respectfully submitted,
